- E** – Environmentally Friendly
- N** – Natural
- I** – Innovative
- T** – Trustworthy
- O** – Original

Hardwood floors have long been a classic favorite - timeless in their beauty, providing a visually stunning effect in any space. At ENiTo™ we have taken this one step further and produced the world's first eco-friendly Palm Wood flooring.

Palm Wood is exceptional; no other woods match its qualities. At ENiTo™, we set new trends with our unique and exquisite Palm Wood floors, which are vibrant and rich in colors and more durable than other hardwood floors.

Look no further than ENiTo™ for your flooring needs - the perfect complement to your home design for all the richness and warmth of cozy living.

# ESPRESSO

## PALM WOOD

Stylish Living

## A class of its own

Black colored Palm Wood flooring – elegantly dark and captivating. ENiTo™ Espresso flooring offers high elegance and comfort. Black has always been classic and timeless. It gave us the inspiration for the “new modern home” – contemporary and minimalistic, which our Espresso flooring helps achieve. Set against white accents to bring forth its dark beauty.

ENiTo™

## Long-lasting decking

Natural and unfinished Palm decking - non-slip for indoor and outdoor use. ENiTo™ Decking drew its inspiration from nature's untouched beauty. Suitable for laying outdoor patios, indoor saunas and bathrooms, the warmth of natural wood will make you feel a part of nature. To highlight the natural sheen of the wood, finish with an oil application then sit back, relax and feel rejuvenated.

ENiTo™

## Eco Friendly Palm Wood Flooring

# The ENiTO™ Difference

At ENiTO™ we are highly committed to preserving our earth's future and produce the world's first and one of few eco-friendly Palm Wood flooring.

Our mission is to develop an innovative and creative alternative to the fast-depleting timber and stop illegal logging.

**Why do we use Palm Wood?** Each year, millions of old palm trees become waste products. By recycling them, we help to save the earth and ensure we do not cut down economically viable trees - there is no conflict between the use of the palm for oil and fat production during its useful life, and timber when it is retired. ENiTO™ Palm Wood is harvested from specially cultivated plantation-grown retired Palm trees. This way, we greatly reduce wastage and ensure source renewal.

At ENiTO™, we enforce strict eco-friendly processes during harvesting, production and packing. We take particular care to meet health environmental standard. Therefore an ENiTO™ floor does not contain formaldehyde, a toxic hazard which poses allergy and cancer risks.

ENiTO™ Palm Wood floor is the **No. 1** choice for your home!

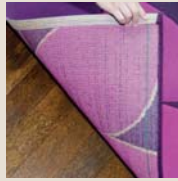

# ENiTo™ is Quality

## SAFE FLOORING - NO FORMALDEHYDE

Every ENiTo™ floor is quality. Our quality assurance is reflected in the fine craftsmanship and eco-friendly materials we use in our floors; the result of which is exquisite, premium Palm Wood flooring with a smooth, semi-gloss finish, that provide the best strength, stability and durability. ENiTo™ floorings last for generations.

**Our superior acrylic UV coated floorings do not contain Formaldehyde.**

### 1. Colour fast

Our quality finishes ensure that your ENiTo™ Palm Wood floor will not fade under direct sunlight or artificial light. With ENiTo™ floors, colors stay true and beautiful for a long time.

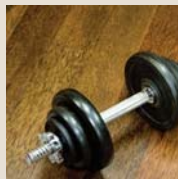

### 2. Stain resistant

ENiTo™ floors are highly stain resistant. Spills and stains can be easily removed with a damp cloth. No more worrying about little hands or party guests.

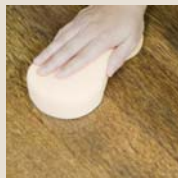

### 3. Scratch resistant

ENiTo™ floor finishing system produces a highly scratch-resistant surface so every ENiTo™ floor is protected against abrasions and maintains its luster longer.

### 4. Impact resistant

Our multilayered UV coating in combination with the extreme hardness of Palm Wood gives us the impact-resistance floors in the market. Highly recommended for residential and commercial spaces where foot traffic is high.

### 5. Easy Care and Maintenance

ENiTo™ floor finishing system produces a highly durable hardwood surface. This extremely hard-wearing surface makes for a low maintenance floor which is easy to clean and maintain. An ENiTo™ floor will always look its best.

## Residential and Commercial Warranty

Our company's high-quality standards enable us to provide a comprehensive warranty covering our acrylic UV floor finishing system. Our limited lifetime warranty extends for 25 years for residential and 5 years for commercial.
